

EXCLUSION ZONE — LIFTING OPERATION OR DEMOLITION IN PROGRESS

Keep out — the zone, the times, who controls it and who may authorise entry

DISPLAY AT THE ZONE BOUNDARY

KD-NOT-EZ-012 Rev A0

An exclusion zone is a control that only works if everyone on site can see where it is and knows who is running it. For a lift, LOLER 1998 reg 8 and BS 7121-1:2016 put the zone in the lift plan and the lift supervisor in charge of it — the drawing is KD-LIFT-EZ-006 and the permit KD-PTW-LO-008. For demolition, CDM 2015 reg 20 requires the arrangements in writing before it starts, and BS 6187:2011 is the code the arrangements follow. This notice hangs on the barrier at every entry to the zone, filled in each time the zone is set, and comes down when the zone is lifted — a notice left on an empty barrier is the reason people ignore the next one.

R REVISION HISTORY

Every revision of this document, and every review that found nothing to change. The revision on the front of this sheet is the one you are holding — check kubitdocs.com for the current one before use.

Rev	Date	Class	What changed	Authorised by
D0	2026-09-02	first-issue	First issue.	— not yet approved —
A0	2026-09-02	review	Approved for issue by the author. Content unchanged from the reviewed draft; the draft status strip is removed. No independent third-party review has been carried out.	Author — director, UK principal contractor, SMSTS. Not an independent review.

Class: first-issue · material (the law, a control, a field or the scope changed — past buyers are notified) · editorial (wording or layout only) · review (checked, nothing changed) · withdrawal. Revision prefix D = draft, not approved and not for sale; A = approved for issue by the person named, on the date shown.
