

HEARING PROTECTION ZONE NOTICE

DISPLAY AT THE ZONE BOUNDARY

Supplements the prescribed sign — the zone, the activity, the protection provided and where to get it KD-NOT-HP-013 Rev A0

Control of Noise at Work Regulations 2005 reg 7(3): where exposure is likely to reach the upper exposure action value, the area is designated a hearing protection zone, demarcated and identified by the prescribed "ear protection must be worn" sign from the Safety Signs and Signals Regulations 1996, and access is restricted. The sign is the legal marking; this notice goes beside it and tells people what the sign cannot — the zone, the activity, the times, the protection this site provides and where to get it. It never replaces the sign. The assessment that set the zone is KD-OH-NA-003; L108 is the guidance.

Fit it before you cross the line, wear it the whole time you are inside, and keep it on until you are back outside. Protection worn half the time gives almost none of the benefit. Report it lost, damaged or uncomfortable and it will be replaced.
