

POWRA REGISTER

One line per assessment — the site's index of what was checked at the workplace, and what stopped

REGISTER — RETAIN ON SITE

KD-POW-RG-006 Rev A0

One line per point-of-work risk assessment, kept by the site, so the POWRAs are findable and the pattern is visible: which tasks are different every day, which gangs stop, which RAMS keep needing revising. CDM 2015 reg 13: the principal contractor monitors the construction phase, and this register is how it monitors the daily layer without reading every sheet; reg 15: the contractor whose task it is files the sheet behind the line. The permit register (KD-SYS-RG-012) indexes permits; the RAMS briefing record (KD-SITE-RB-008) indexes who was briefed on the document; this register indexes the daily check.

R REVISION HISTORY

Every revision of this document, and every review that found nothing to change. The revision on the front of this sheet is the one you are holding — check kubitdocs.com for the current one before use.

Rev	Date	Class	What changed	Authorised by
D0	2026-09-02	first-issue	First issue.	— not yet approved —
A0	2026-09-02	review	Approved for issue by the author. Content unchanged from the reviewed draft; the draft status strip is removed. No independent third-party review has been carried out.	Author — director, UK principal contractor, SMSTS. Not an independent review.

Class: first-issue · material (the law, a control, a field or the scope changed — past buyers are notified) · editorial (wording or layout only) · review (checked, nothing changed) · withdrawal. Revision prefix D = draft, not approved and not for sale; A = approved for issue by the person named, on the date shown.
