KD-INS-PE-030 Rev A0

The Personal Protective Equipment at Work Regulations 1992 (as amended 2022, which extended the duties to limb (b) workers — the labour-only subcontractors on most sites): reg 4 requires suitable PPE where the risk cannot be adequately controlled by other means, reg 6 an assessment of its suitability, reg 7 maintenance and replacement, reg 9 information and training, reg 10 use, reg 11 reporting of loss or defect; HSWA 1974 s.9 forbids charging for it. The risk-specific regulations say what: COSHH 2002 reg 7 (RPE, selected and face-fitted to HSG53 (4th edition, 2013)), Control of Noise at Work Regulations 2005 reg 7 (hearing protection). PPE is the last control, not the first; the issue is recorded so the site can show who had what and when it was replaced. Harnesses are on KD-INS-HR-005; the toolbox talk is KD-TBT-PP-018.

The register shows provision, not use. Use is checked on the weekly walk (KD-INS-WS-010) and enforced by the site rules. Gloves and RPE are chosen from the assessment on KD-INS-CO-017, hearing protection from KD-INS-NS-015 — an item that is not on an assessment is a guess.
