

HSG250: a permit system relies on the site knowing which places can only be entered on a permit, and on those places being marked. CDM 2015 reg 13(4)(b): unauthorised people are kept out. This notice hangs on the door or the barrier of a restricted area and says what it is, why entry is controlled, which permit is needed, who issues it, and who is on the list. Who may be authorised is decided on the authorisation scope matrix (KD-SYS-SM-020); a permit to enter is KD-PTW-PE-009; the confined space, electrical and radiation permits carry their own restrictions. A name not on this notice does not go in.
