PROJECT / SITE REF	SITE	DATE	PLAN REV	PLAN OWNER
CLIENT	PRINCIPAL CONTRACTOR		PLANNING CONDITION / CONTRACT CLAUSE DISCHARGED	CONTRACT VALUE

THE WORKS

WASTE DESIGNED OUT BEFORE START

WASTE STREAM	EWC COD...	HA...	EST. QTY (T OR...	ARISING FROM (ACTIVITY / PH...	SEGREGATED ON SIT...	ROUTE: RE-USE / RECYCLI...	DESTINATION
SAMPLE NOT FOR USE ON SITE - kubitec							

Separate skips or bays for inert, timber, plasterboard, metal and mixed waste, each labelled with what goes in it
Plasterboard kept out of the mixed and inert skips and stored dry — it goes to a gypsum recycler, not to landfill with other waste
Hazardous waste in a locked, bunded, labelled store with the consignment note raised before it moves
Skips covered or netted; no skip loaded above the rim; skips positioned where the traffic plan puts them
Welfare and canteen waste in closed bins emptied daily; no food waste in the construction skips
The segregation arrangement briefed at induction and shown on the site layout plan

WASTE COMPOUND AND SKIP POSITIONS

5 CARRIERS AND DESTINATIONS — CHECKED BEFORE THE FIRST LOAD, AND AGAIN ON RENEWAL

CARRIER	CARRIER REGISTRATION N...	CHECKED ON THE PUBLIC R...	DESTINATION SITE	PERMIT OR EXEMPTION...	PERMIT CHECKED (DATE...

A registered carrier is checked against the regulator's public register, not against a photocopy of a certificate; a destination is checked for a permit or a registered exemption that covers the waste sent to it. A note that names a carrier or a destination that has not been checked is a duty-of-care failure waiting to be found. From October 2026 the receiving site records the load on the digital waste tracking service; the producer's note and its retention are unchanged until the Regulations are.

6 HAZARDOUS WASTE — CONSIGNED, NEVER MIXED

HAZARDOUS STREAMS EXPECTED	STORE	CONSIGNMENT NOTES RAISED BY	CONSIGNEE(S)

A hazardous stream mixed into a general skip makes the whole skip hazardous. Asbestos is removed only by a contractor licensed for it where the work is licensable under CAR 2012, and otherwise by trained workers, with the notification made where the work is notifiable; every tier consigns it as hazardous waste. The licensed-work records are KD-QA-AR-001 and -002, the non-licensed record is KD-QA-AR-003, and the consignment notes go on KD-SITE-WT-021 with the rest.

7 TARGETS — SET FROM THE FORECAST, REPORTED AT COMPLETION

DIVERSION FROM LANDFILL TARGET	RE-USE ON SITE TARGET	RECYCLED CONTENT OF MATERIALS BOUGHT	REPORTED TO THE CLIENT
