 TEMPLATE ONLY. The limits, hours and conditions for this site come from its planning consent, its permits and the regulator's current guidance — write them in; nothing printed here is a figure to work to. (A plan evidences what a competent person decided and does not replace the doing of it.
 Basis: Environmental Permitting (England and Wales) Regulations 2016 regs 12 and 38; Control of Pollution (Oil Storage) (England) Regulations 2001.

REFUELLING POINT AND METHOD

SPILL KITS AT THE STORE AND THE REFUELLING POINT

FUEL LOG KEPT

7 IF IT GOES WRONG

Stop the source. Protect the drain — cover it, bund it, block the outfall. Contain and absorb with the kit. Tell the site manager. If anything has reached a drain, a watercourse or the ground beyond the spill kit's reach, call the regulator's incident line in section 1 and the water company where a sewer is involved; a report made by the site is treated very differently from one made by a neighbour. Record it on KD-SITE-FL-022 and complete KD-ENV-IR-007. The full sequence and the drill are KD-ENV-SR-006.
